

Our offices and training hall are housed in a former F16 shelter, in the heart of the Technology Base in Enschede, the Netherlands. Located only 10 min from the German border, it's the perfect secure location to build our innovative platform and continuously test and improve our tailor-made solutions with our customers.

Come visit us and see our products in action.

RE-liON™

PRELIVE THE FUTURE

"Prelive: to live in advance; the feeling that one has lived through the situation before"

We're the European leader in VR technology for training and operations for Defense and Police.

Established in 1999, we have ample experience improving the safety and performance of those who risk their lives everyday, using the best technology.

What makes RE-liON Unique?

- . We focus on Law Enforcement & Defense - we know your industry and your needs.
- . Tried and tested: our VR products are being used for more 5 years already.
- . We offer both off-the-shelf and bespoke solutions to fit your needs and budget.
- . We have a subscription model for maximum flexibility and accessibility.

More than 10K operators in Defense & Police already trust us and train with RE-liON™
